

House2Home Inspection Services is constantly searching for methods, processes and services that will improve our customer's, realtors and consumers, inspection experience. Our latest system enhancement, **Real Estate Inspection Dashboard (RED)**, provides easy access to our scheduling and reporting system from your phone or computer. **RED** is personal access link so that scheduling your home inspection services are simple and easy. With your smartphone **RED** app, you can:

- Quickly see **H2H** inspector availability,
- Request an inspection with limited typing and information,
- View your past inspections performed by **House2Home Inspections**,
- Update your biography, personal and company information.

Contact our office and we will text your personalized **RED** link to your phone. Enter the link into your phone's web browser, open the link and save the page as a "Favorite" or "Bookmark". Some phones will give you an option to "add to homescreen" which will install an icon your "Home" page. You will now have **H2H Inspection Services**' access at your fingertips.

After you have placed your order one of our team will call you back to verify all the information and confirm the inspection date and time. We will also provide a detailed cost of the inspection and any related services at that time. Remember, your order is NOT confirmed until one of our **H2H** team members contacts you. You will be contacted within 60 minutes from when you place the order.

House2Home Inspection Services continually strives to improve the inspection experience that we provide to all of our clients; buyers, sellers and realtors. We believe you will find our newest enhancement will make scheduling and reviewing your inspections with **H2H** a breeze.
