

Why **House2Home** Inspection Services?

SCHEDULING

Whether calling our staffed office, using our online scheduler, using your personalized Real Estate Dashboard (RED) app or through email, **H2H Inspection Services** will make scheduling your home inspection simple. **H2H Inspection Management System's** automated announcements and reminders help keep all parties informed regarding the inspection process. **H2H** performs inspections Monday through Saturday.

REPORT

Realtors appreciate our report structure and turnaround time. The inspection report is delivered via email to you and your client within hours of the inspection. **H2H** inspection reports include photos of any noted defects and many reference photos for information purposes. These photos in conjunction our inspector's ratings and comments makes understanding the homes strengths and weaknesses easier for you, the buyer and the seller. We are confident in our inspection results so provide our clients with **House2Home Inspection's** 100 Day Guarantee.

INFORMATION

House2Home Inspection Services always encourages the client to attend the inspection. Our inspectors enjoy the interaction with their clients. When finding potential defects or weaknesses, they will explain the severity and possible remediation actions. **H2H** inspectors will also explain and operate the homes major systems. Our goal is to educate our client on their potential purchase so they can make an informed decision.

INSPECTORS

In Michigan there are no legal or licensing requirements to be called a "home inspector". **House2Home** inspectors are required to be trained and certified by the National Institute of Building Inspectors (NIBI) ensuring **H2H** inspectors are knowledgeable, thorough and up to date. Our inspectors have 35+ years of home inspection experience providing them with a wide base of knowledge. **H2H** inspectors are fully insured with E&O and General Liability insurances. We also enjoy what we do...helping clients understand a house they hope will become their home.
